Hi Amy,

I believe that the extension requests are already published in the comments. For example, here is a [comment](#) in the imidacloprid docket.

Matt

Thanks Matt, another quick question does EPA intend to publish the specific extension requests as with the previous requests you received into the docket?

**Subject:** RE: Reopening of Docket

Hi Amy,

The agency received comments requesting an additional public comment period due to recent time constraints and delays. For this reason, the agency is re-opening the public comment period for an additional 30-days from the date of announcement. That announcement is set to publish on May 19, 2020.

Please let me know if you have any other questions,

Best,

Matt

**Subject:** Reopening of Docket

Hi Matt,

I just saw the prepublication notice that the neonic docket is reopening for an additional 30 days. Could you let us know what request this is in response to?
